🎤 Presentation Guide — Vrinda Store Annual Report 2022

A step-by-step playbook for presenting this project to your manager and client with confidence.

Pre-Meeting Checklist (48 Hours Before)

- [ ] Review the full dashboard end-to-end once
- [ ] Memorise the 5 KPIs: ₹2.12 Cr revenue, 31K orders, 92% delivery, 64% women, March peak
- [ ] Write down 1 "so what" action per chart (7 total)
- [ ] Print or export this documentation as a PDF leave-behind
- [ ] Test Excel file on the presentation device — check slicer functionality
- [ ] If virtual: test screen share resolution on the Excel dashboard
- [ ] Prepare answers to the 7 FAQ questions (see `docs/Documentation_Package.html`)

Recommended Presentation Flow (30 Minutes)

⏱ 0:00 – 2:00 | Opening Hook

Say this:

> *"Vrinda Store generated ₹2.12 Crore in 2022 across 31,000 orders on 7 platforms. This report tells us exactly where it came from, who's buying, and where the next ₹50 Lakhs is hiding."*

State the agenda: monthly trends → customer demographics → channel performance → recommendations.

⏱ 2:00 – 14:00 | Chart Walk-Through

Present charts in this order for maximum narrative impact:

Order	Chart	Time	Key Line
1st	Monthly Sales & Orders	2 min	*"March peaks — but there's a 4-month slide from September we can fix."*
2nd	Sales by Gender	1.5 min	*"64% of revenue comes from women — this defines our entire marketing strategy."*
3rd	Age Group × Gender	2 min	*"Adult women 30–49 are our #1 segment with 10,740 orders — twice the next group."*
4th	Top 5 Cities	1.5 min	*"Bengaluru alone drives ₹17.7 Lakhs — South India is our strongest market."*
5th	Revenue by Channel	2 min	*"Amazon, Myntra, and Flipkart together = 80% of revenue. That's where we invest."*
6th	Revenue by Category	2 min	*"Sets alone are 50% of total revenue. This is the hero product."*
7th	Order Status	1 min	*"92% delivery rate is strong — but 2,400 problem orders represent ₹12L in recoverable revenue."*

For each chart, use this 3-part formula:

1. **"Here is what the chart shows..."** (10 seconds)
2. **"The key insight is..."** (20 seconds)
3. **"What this means for us is..."** (30 seconds — the business action)

⏱ 14:00 – 19:00 | Top 5 Recommendations

Present the recommendations table. Frame each with an estimated revenue impact.

Opening line:

> *"Based on all 7 charts together, here are the 5 highest-leverage actions for 2023:"*

#	Recommendation	Impact
1	Expand Sets collection	+₹15–25L
2	Increase Amazon ad spend + A+ content	+₹10–20L
3	Target Adult Women 30–49 as marketing persona	+₹8–15L
4	Launch Q4 festive campaign	+₹5–10L
5	Reduce returns via better size guides	+₹4–7L

Closing line:

> *"If we execute on these 5 recommendations, a conservative 2023 target of ₹2.5 Crore is very achievable."*

⏱ 19:00 – 28:00 | Q&A

- Listen fully before answering
- If you don't know: *"Great question — I don't have that in scope but I'll follow up."*
- If out of scope: *"That's worth a deeper-dive analysis — I can scope that for a follow-up."*
- Never guess or make up numbers

⏱ 28:00 – 30:00 | Close Strong

Say this:

> *"The data tells a clear story — women aged 30–49 in metro cities, buying Sets and Kurtas, primarily on Amazon and Myntra. Every recommendation flows from that insight. I'll send the full documentation and the Excel file right after this."*

Handling Difficult Questions

Question	Recommended Response
"Why the September decline?"	Likely under-investment in festive marketing; opportunity to fix in 2023
"Is this data accurate?"	31K+ orders, full year — high confidence; specific queries → source system

Question	Recommended Response
"What's average order value?"	~₹684 (₹2.12 Cr ÷ 31,047); upsell bundles to increase
"Should we drop Meesho?"	No — serves Tier 2/3 cities, low overhead, different audience
"What's the 2023 target?"	₹2.5–2.7 Cr with recommendations actioned; ₹2.2 Cr conservative baseline

---

Post-Presentation (Within 24 Hours)

- [ ] Send follow-up email using Template 3 in `docs/Documentation_Package.html`
- [ ] Attach Excel dashboard + Documentation HTML
- [ ] List agreed action items with owners and deadlines in writing
- [ ] Schedule a 2-week check-in to review progress on recommendations
